SUMMARY

Senior full stack developer and technical lead with 7+ years of experience building and scaling web applications, Shopify apps and themes, and SaaS products. Proven track record leading engineering teams, defining technical architecture and product roadmaps, and integrating AI-driven features into production systems. Skilled across React, TypeScript, Node.js, Laravel and PHP, with hands-on experience in Shopify API/webhook integrations, CI/CD pipelines, and cross-functional collaboration with remote and distributed teams.

SKILLS

React, TypeScript, JavaScript, Node.js, Laravel, PHP, Shopify Apps, Shopify Themes (Liquid, Online Store 2.0), Supabase, REST APIs, Webhooks, AI Integration, Automation, CI/CD, Agile/Scrum, MySQL, Team Leadership & Mentoring, Software Architecture

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer — Ader Solutions

Jan 2023 – Present

Rabat-Salé-Kénitra, Morocco

- Develop and maintain full stack applications and SaaS products using React, TypeScript, Node.js, Laravel, and Shopify apps.
- Define and execute the company's technology strategy and product roadmap.
- Lead and mentor the engineering team, establishing and enforcing engineering best practices.
- Design scalable, secure, and maintainable software architectures.
- Oversee code reviews, CI/CD workflows, and deployment processes.
- Drive product innovation by integrating AI solutions and modern web technologies.
- Collaborate with cross-functional teams to deliver high-quality products aligned with business goals.

Full Stack Engineering Developer (Remote) — Le Ventures

Nov 2020 – Jan 2023

Remote — United States

- Developed and maintained Shopify apps, custom themes, and SaaS solutions for merchants, focused on scalable and user-friendly products.
- Built responsive frontend applications using React and TypeScript, delivering modern, high-performance user experiences.
- Developed backend services with Node.js and Laravel, integrating Shopify APIs, webhooks, and third-party platforms.
- Customized Shopify themes using Liquid and Online Store 2.0 to build optimized storefronts tailored to merchant needs.
- Collaborated with a remote U.S. engineering team through Agile workflows, code reviews, and technical planning.
- Improved application performance, reliability, and maintainability by applying best practices and writing clean, reusable code.
- Contributed to React Native features supporting ongoing product enhancements across web and mobile platforms.

Full Stack Developer (Part-time) — FORNET MAROC

Nov 2020 – May 2021

Rabat-Salé-Kénitra, Morocco — concurrent with full-time role at Le Ventures

- Developed and maintained full stack web applications using React, TypeScript, Node.js, and Laravel.
- Built scalable APIs, integrated third-party services, and delivered responsive, user-focused interfaces.

- Collaborated with cross-functional teams to deliver reliable, high-quality software in Agile environments.

Frontend Developer — ARA Systèmes & Technologie

Nov 2019 – Aug 2020

Salé, Morocco

- Built a web app using Ionic and Firebase to manage restaurants and cafes.
- Built an SPA dashboard and delivery app using Angular and Firebase.

Full Stack Engineer — Morrocow3

Jun 2018 – Oct 2019

Morocco

- Developed custom web applications and business platforms using Laravel, PHP, JavaScript, and MySQL.
- Built responsive, secure, and maintainable websites while integrating REST APIs and third-party services.
- Worked closely with clients to deliver tailored solutions, optimize performance, and support ongoing enhancements.
